Prioritized List of Risks for the SenecaSync Project

1. Technical Integration Delays (Risk ID: R01)

- **Likelihood:** High
- **Impact:** High
- **Priority:** High
- **Description:** Delays in integrating the SenecaSync app with Blackboard Ultra could derail the project timeline and impact functionality.

2. Mobile Platform Compatibility Issues (Risk ID: R05)

- **Likelihood:** Medium
- **Impact:** High
- **Priority:** High
- **Description:** Challenges in ensuring the app functions consistently across different mobile platforms could affect user experience and adoption.

3. Delay in Project Milestones (Risk ID: R15)

- **Likelihood:** Medium
- **Impact:** High
- **Priority:** High
- **Description:** Project timeline slippage due to various factors, potentially leading to delayed delivery and increased costs.

4. Insufficient User Adoption

- **Likelihood:** Low
- **Impact:** High
- **Priority:** Medium
- **Description:** The risk that the student body does not adopt the SenecaSync app as anticipated, affecting its effectiveness and value.

5. Data Privacy and Security Concerns

- **Likelihood:** Low
- **Impact:** Very High
- **Priority:** Medium

- **Description:** Potential data breaches or privacy issues could lead to legal complications and loss of trust among users.

6. Budget Overruns

- **Likelihood:** Medium
- **Impact:** Medium
- **Priority:** Medium
- **Description:** The risk of the project exceeding its allocated budget, necessitating additional funding or scale-backs in scope.

7. Technology Obsolescence

- **Likelihood:** Low
- **Impact:** Medium
- **Priority:** Low
- **Description:** The possibility that the technology used in SenecaSync becomes outdated quickly due to rapid advancements in the field.
